

Division Concept 1

1. Write a division sentence and a multiplication sentence.

		
<p>a. $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>b. $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>c. $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>

2. Fact families: write two division and two multiplication sentences.

<p>a. 21 7 and 3</p> <p>$\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>b. 24 4 and $\underline{\quad}$</p> <p>$\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>c. 36 4 and $\underline{\quad}$</p> <p>$\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>d. 55 5 and $\underline{\quad}$</p> <p>$\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \times \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>
--	---	---	---

3. Practice a little. Continue the patterns.

<p>a. $16 \div 2 = \underline{\quad}$ $18 \div 2 = \underline{\quad}$ $20 \div 2 = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>b. $45 \div 5 = \underline{\quad}$ $40 \div 5 = \underline{\quad}$ $35 \div 5 = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>c. $90 \div 10 = \underline{\quad}$ $100 \div 10 = \underline{\quad}$ $110 \div 10 = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>
---	---	--

4. Write another division sentence for each division problem, using the same numbers.

<p>a. $56 \div 7 = 8$ $56 \div 8 = 7$</p>	<p>b. $40 \div 4 = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>c. $72 \div 9 = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>	<p>d. $88 \div 11 = \underline{\quad}$ $\underline{\quad} \div \underline{\quad} = \underline{\quad}$</p>
--	---	---	--

5. Solve for x.

<p>a. $64 \div x = 8$ $x = \underline{\quad}$</p>	<p>b. $35 \div x = 7$</p>	<p>c. $45 \div x = 9$</p>	<p>d. $54 \div x = 6$</p>
--	--------------------------------------	--------------------------------------	--------------------------------------
